OVERVIEW

A full stack developer who have successfully completed projects including desktop / mobile applications using React / Django Framework.

Capable of conceptualizing and supporting frameworks and applications with problem-solving mindset.

Skilled in researching and implementing cutting-edge solutions to quickly and effectively resolve issues.

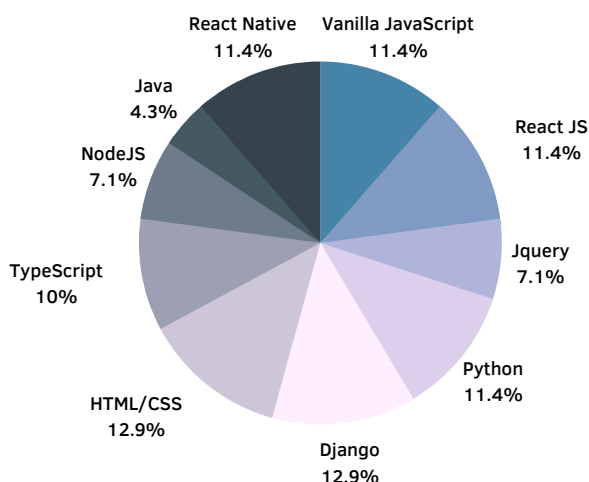

QUALITIES

- Always try to write a high-quality code that is easy to maintain
- Clear and fast communication
- Belief in providing continuous services and support

I am a highly committed and responsible software engineer, focused on untiringly improving my skills, and developing a long-term relationship with others.

MY SKILLS INCLUDE

- MVC
- AJAX, JavaScript, JQuery
- UI/UX Design (HTML5, CSS3, Bootstrap)
- MongoDB, Docker
- AWS, Git
- Payment Gateways (Paypal, Stripe)
- Web Service (REST, Web API)

EXPERIENCE
