CANDICE JEEYOUNG HAN

FULLSTACK SOFTWARE DEVELOPER

INTRO

Self-taught full-stack developer, I'm keen on new technologies.

After working in international trade and marketing for 3years, I decided to change my career to software engineering.

I build responsive websites and apps using JavaScript, HTML / CSS for the frontend, and Django, ReactJS, Java for the backend.
I like coding because it fits with my personality, and it requires focus and adaptability.
